POSITION ANNOUNCEMENT

POSITION: Stormwater Inspector
DEPARTMENT: Utilities
SALARY: $19.75/hr. + Benefits
CLOSES: Open Until filled

Definition: Under the direction of the Utility Engineer, the Stormwater Inspector is responsible for assisting with the operation and maintenance management of the stormwater system and implementation and compliance of the City of Brighton’s Municipal Separate Storm Sewer System (MS4) permit requirements. Supports and exemplifies the City of Brighton Mission and Values.

Example of Duties:
Conduct, document, and enforce stormwater inspections at construction sites per applicable ordinances and procedures. Inspection of permanent stormwater structures, outfalls and municipal facilities. Assist in investigation and response to illicit discharge events. Perform various maintenance tasks on City owned and maintained stormwater infrastructure. Participate in public education and outreach activities which may include occasional work on the weekends. Perform various maintenance tasks on City owned and operated stormwater infrastructure. Educate stakeholders, such as HOAs and property managers, of their responsibilities to maintain private storm infrastructure. Prepare necessary calculations, data entry, spreadsheets, summaries, and reports. Other duties as assigned.

Required Knowledge, Skills, and Abilities:
Current knowledge of local, state and federal stormwater regulations; basic knowledge of the Clean Water Act; understanding of NPDES requirements for Phase II communities; understanding of erosion and sediment control BMPs; methods and techniques for basic report preparation and writing; laws and safety as it relates to vehicle operation. Work with supervisor to develop and implement appropriate response for various complex issues; prepare clear and concise administrative and technical reports; follow standard operating procedures; respond to issues of concern to citizens; operate equipment associated with assigned area of responsibility; interpret, understand, and follow ordinances, regulations, standards, and guidelines; demonstrate intermediate to advanced level skills using Excel, Access, Word, and Outlook; type a minimum of 30 wpm; communicate effectively verbally and in writing; establish and maintain effective working relationships with those contacted in the course of work. Knowledge of GPS and ArcMap systems preferred.

Working Conditions: Incumbent must drive a truck to reach monitoring sites, which may include constructions sites, municipal facilities, various storm sewer system locations; residences or businesses; streams, ditches or manholes which the worker must climb and be able to work within a confined space or near high traffic areas. Worker may be exposed to hot, cold, wet, humid, or windy weather conditions during sampling and/or inspection tasks. Must negotiate hillsides, rocks, or other obstacles while carrying sampling equipment. Hazards include possible exposure to toxic, corrosive, or flammable chemicals. Physical demands are described as heavy (exert up to 100 lbs. of force occasionally, and/or in excess of 50 lbs. of force frequently, and/or in excess of 20 lbs. of force constantly to lift, carry, push, pull, or otherwise move objects.) Execution of required tasks in the field require full range of body movements including: climbing, balancing, stooping, kneeling, crouching, reaching, handling, feeling, talking, standing or walking much of the time, as well as lifting. Specific vision abilities required by this job include close vision, distance vision, depth perception, and ability to adjust focus. The ability to discriminate color is helpful. Data entry and reporting tasks may involve working at a computer for several hours. Approximately 75% spent on the field, and 25% spent in the office.

Education and Training:
Associates degree from a two (2) year college or technical school and a minimum of two (2) years of stormwater related experience in environmental science, watershed science, natural/environmental resources, biology, or a related field. Bachelor’s Degree preferred. Erosion control certification or classes desirable. A combination of education and experience may be considered.

Special Requirements: Valid Colorado Driver’s License. Bilingual English/Spanish preferred.

Apply: Online at www.brightonco.gov or at 500 S. 4th Avenue, Brighton, CO 80601 (303-655-2098)
