Imagine a Day Without Water

September 15, 2016 | 10:00 am - 1:00 pm | Lory Student Center Plaza

Imagine: No water to drink, or even to make coffee with. No water to shower, flush the toilet, or do laundry. Hospitals would close without water. Firefighters couldn't put out fires and farmers couldn't water their crops. Some communities in America already know how impossible it is to try to go a day without our most precious resource: water. Join us online and on the LSC Plaza as we raise awareness and educate America about the value of water.

GRANTS AND FELLOWSHIPS

NSF - Hydrologic Sciences

Proposals accepted anytime.

The Hydrologic Sciences Program focuses on the fluxes of water in the environment that constitute the water cycle as well as the mass and energy transport function of the water cycle. The Program supports the study of processes from rainfall to runoff to infiltration and streamflow; evaporation and transpiration; the flow of water in soils and aquifers; and the transport of suspended, dissolved, and colloidal components.
