

FLINT: THE FEDERAL RESPONSE AN ON-THE-GROUND PERSPECTIVE

CSU WATER EQUITY SYMPOSIUM

FLINT WATER PLANT

A low-angle shot of a large, white, cylindrical water tower. The top edge of the tower is curved and features the words "FLINT WATER PLANT" in bold, dark blue, sans-serif capital letters. Below the top edge, the tower's structure is visible, consisting of numerous white, vertical columns that support the upper section. These columns are interconnected by a network of white cables and beams, creating a complex, web-like internal structure. The background is a plain, light grey sky.
