

# WATERSHED SERVICES

Jen Shanahan, Watershed Planner

# The type of system determines path to resilience

Rock + Water

A	Reference	No management needed
B	Highly functioning	May need some management
C	Functioning	Management likely required
D	Functionally Impaired	Extensive, active management
F	Non-Functioning	Biologically unsuitable

# Understanding resilience on the Poudre River

## A River Health Assessment and Report Card

# Poudre Health Report Card

	<b>Flow Regime</b>
	<b>Sediment Regime</b>
	<b>Water Quality</b>
	<b>Floodplain Connectivity</b>
	<b>Riparian Condition</b>
	<b>River Form</b>
	<b>Resilience</b>
	<b>Physical Structure</b>
	<b>Aquatic Life</b>

Happy healthy river – average years

# Resilience

Resilience through the extremes
