12:15 – 12:55

Working Lunch

Selection of 2020 Poudre Pioneer Awardee

The group reviewed the rankings by the PRF Planning Committee and discussed the interest that PRTI has in honoring those with influence on both the healthy river and working river aspects, as well as the importance honoring those along the full stretch of the river.

The group came to consensus on honoring the work of Jeff Burley, Ben Loeffler, and Tim O’Hara for their contributions to the new Poudre River Whitewater Park as well as the contributions of several partner organizations who helped this project come to fruition. The project demonstrates the collaborative efforts of many and includes aspects that support the working and healthy river at the same time.

The group discussed the procedure for soliciting nominations, application review, selection, and the need to better define the process. Julie will work with the PPA Chair to develop guidelines for PRTI’s approval.

12:55 – 1:00

Closing and adjourn

Next session: January 10 at Tamasag focused on industrial hemp
